

Affordable, luxurious,
easy fit solid surfaces

minerva[®]

FITTING PERFECTION

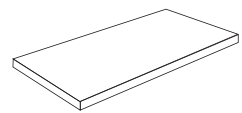

CARYSIL

minerva® Chalk Venato

Solid performance...

FACTORY MACHINED
FACE & EDGES, ALL
FINISHED BY HAND

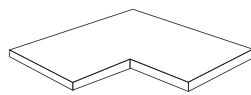

All **minerva**® worksurfaces are supplied ready for installation with smooth factory machined face & edges all finished by hand.

No need, therefore, for time consuming and messy preparation work as face & edges are finished and ready for fitting.

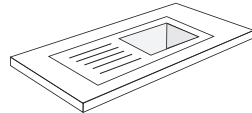

FASTER LEAD TIMES,
QUICKER
INSTALLATION

minerva® cuts the wait and cost usually associated with choosing solid worksurfaces, saving you time and money.

IMPERCEPTIBLE,
SEAMLESS,
SOLID JOINTS

Whether you are using the services of a professional installer or doing the job yourself, **minerva**® is designed to deliver the best possible aesthetic results.

PRE-FABRICATED
FEATURES

Undermounted bowls teamed with designer drainer grooves, breakfast bars, splashbacks and upstands, these are just some of the added attractions of choosing **minerva**® for your kitchen.

CUSTOM
SERVICE

Rather than fabricating on-site, bespoke worktops can be manufactured in our factory as per your unique kitchen designs.

...total design flexibility

minerva® solid worksurfaces are manufactured to a full 25mm thickness with colour throughout.

Welcome to **minerva**®: the home of practical and solid kitchen worksurface material, manufactured using state-of-the-art technology. Delivering a luxurious appearance, cool pleasing touch and robust performance day in, day out. With a 10-year guarantee against manufacturing defects, style is not compromised for quality.

Imperceptible, seamless joints with full design flexibility. Aspirations are a reality. Whether you dream of sweeping curves or contemporary lines, **minerva**® offers the flexibility to meet all your design needs without the cost of specialist installation. Please take a look through our brochure and contemplate some of the possibilities. Your imagination will provide the rest!

CARYSIL

In 2022 we became part of the Carysil group of companies – world renowned for manufacture of quality sinks, taps and now worksurfaces.

minerva Carrara White

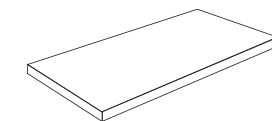

Tap shown can be found in the Carysil Products range, visit carysil.co.uk

Factory machined face & edges, all finished by hand

All **minerva**® worksurfaces are supplied with smooth factory machined face and edges, all finished by hand.

We cut and hand finish the worksurface face and edges for you, so they are delivered ready to fit, saving you valuable installation time and money.

No need to spend time on site making sure the finished face and edges are square and presentable, it's all been done for you.

minerva® Grey Crystal

minerva® Ice Crystal - stylish upstands are hygienic and easy to clean

minerva® Caramel Crunch - worksurfaces can be easily cut on-site to produce concave and convex curved corners

minerva® Marble Wash

Faster lead times... quicker installation

No specialist equipment, no specialist installation...no time wasted.

With **minerva**® there is no waiting for complicated templates to be produced and risk expensive delays. All **minerva**® worksurfaces are factory machined and then finished by hand, delivered ready for installation...it's that quick, it's that simple.

The versatility of **minerva**® allows for any shape of your choice. Both concave and convex curved corners can be easily cut on-site with standard woodworking tools by any experienced kitchen fitter.

minerva Carrara White is a veined décor reflecting the natural appeal of stone

minerva Peak Stone with the cool touch of solid stone

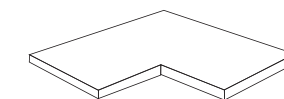

minerva Sparkling White is reassuringly elegant with just the right amount of sparkle

Imperceptible, seamless, solid joints

Smooth flowing lines, even across the joint.

Every **minerva** joint is hygienic and seamless to touch. An imperceptible joint can be achieved with most décors. Our veined décors are completely unique, therefore visual difference between joints is to be expected.

There are no specialist preparation procedures required to achieve beautiful imperceptible, seamless joints.

minerva[®]

minerva® Carrara White with pre-fabricated
1.5 bowl acrylic sink

minerva® Ice Blue

minerva® Silver Haze

Pre-fabricated features

With fabrication built-in, **minerva®** saves valuable time when it comes to preparation and installation.

All working faces and edges are factory machined and hand finished, which means there's no time wasted on site. Select an undermount steel, granite or acrylic sink from the **minerva®** collection.

Factory pre-fabricated for easy and quick installation.

minerva® Grey Storm

minerva® sink modules are made from a solid piece of material, the recessed sections may have a slightly different pattern on some décors due to the spread of the coloured chips.

Due to the production process of **minerva®** Copper Fleck worksurfaces, the particulate can be felt in the finished surface giving it a textured feel. This is quite normal and does not affect the use of the work surface.

minerva® Copper Fleck

minerva®

Granite undermount sinks

Our granite undermount selection offers great durability and a simple uncluttered design. Add the choice of 4 colourways and the options are plentiful.

- 12mm radius corners
- Boiling tap compatible
- Available in both 3 metre and 1.5 metre board options
- Plumbing kit supplied
- Fitting clips supplied

Sink Modules

minerva® sink modules are hugely desirable yet affordable and simple to fit thanks to the factory preparation of the worktop to include drainer grooves and all necessary fixings. With our **minerva**® sink modules being completed to the highest standard in our factory, saving you time on installation.

Our sink modules are available with six different bowl options; including steel, acrylic, granite, and ceramic to ensure you can create your perfect kitchen. **minerva**® sink modules are available as 3 metre boards as standard, with a selection of bowl options being available in 1.5 metres.

All **minerva**® sink modules are supplied as either left or right hand bowl which must be specified at the time of order. Images shown are left hand bowl. All bowls are suitable for use with waste disposal units. Only granite, ceramic and steel bowls are suitable for use with instant boiling water taps.

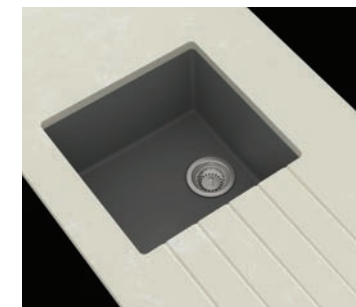

KEY:

- This sink is suitable for use with a boiling water tap
- Do not install a boiling water tap with this sink

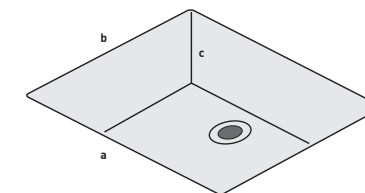

- 500** Will fit into 500mm base cabinet
- 600** Will fit into 600mm base cabinet
- 650+** Will fit into base cabinet openings over 650mm

- S** All bowls are SS304 (18/10) grade steel
- The notching of your cabinet may be required to fit this sink into a 600mm base unit

Ceramic sinks

Our ceramic sinks have been manufactured in our factory from the finest fireclay. Each sink is unique and hand-finished in brilliant white lustre with a high gloss glaze.

- 12mm radius corners
- Installation may require additional support
- Available in both 3 metre and 1.5 metre board options
- FFC (Fine fireclay material) with glazed surface
- Boiling tap compatible

Acrylic 25mm undermount sinks

Our 25mm acrylic sink modules are supplied with a seamless, factory fitted, white sink. Each module has a recessed drainer area and drainer grooves machined into the surface and then hand finished by our highly skilled fabricators.

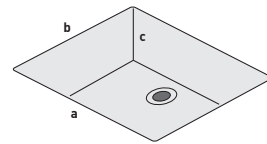

- 25mm radius corners
- Plumbing kit supplied
- NOT compatible with boiling water taps
- Fully fabricated at our factory

- a. 340mm
- b. 400mm
- c. 190mm
- d. 160mm
- e. 300mm
- f. 120mm

Our acrylic bowls aren't suitable for use with boiling water taps. Allowing boiling water to run freely into acrylic bowls over a period of time may result in superficial crazing of the acrylic surface. When straining boiling water from vegetables etc, we recommend you always run the cold water tap to help prolong the quality of the sink.

Whilst **minerva**® sink modules are made from a solid piece of material, the recessed sections may have a slightly different pattern on some décors due to the spread of the coloured chips.

minerva®

Steel 10mm internal radius undermount sinks

For a more contemporary feel look no further than our 10mm radius steel undermounts. The tighter 10mm radius and pressed drainer channels give a clean modern feel and the simple drainer groove finish allows for the tap to be located to your own requirements.

- 10mm radius corners
- Boiling tap compatible
- Available in both 3 metre and 1.5 metre board options
- Plumbing kit supplied
- Fitting clips & sealant supplied

Steel 25mm internal radius undermount sinks

This is our original range of undermounted steel sinks with a 25mm corner radius. These sink modules have a recessed area around the sink cut out and include drainer grooves.

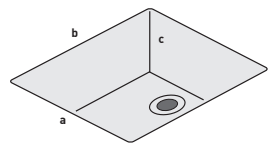

- 25mm radius corners
- Boiling tap compatible
- Plumbing kit supplied
- Fitting clips & sealant supplied

minerva® solid surfaces come with our 10 year guarantee* and are supported by the FIRA Gold Award for product excellence – this is testimony to the fact that we use only the most superior materials and our products are constantly tested to ensure they are manufactured to the highest standards.

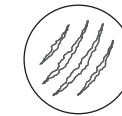

minerva® has been developed for the domestic environment, especially the kitchen. Although no 'special' maintenance is needed, we recommend the following is adhered to, as prevention is always better than cure.

Routine cleaning

minerva® does not require any specialist cleaning regimes, most dirt and light residue will easily wipe off with a damp cloth and soapy water. The worksurface should then be rinsed with clean water and wiped dry. Persistent marks can be removed by using a mild abrasive cleaner, but harsh scouring powders should be avoided. If in doubt, consult our care and maintenance guide.

Minor scratching

Kitchen utensils and crockery (particularly unglazed bases) can sometimes cause scratches that will be more evident on darker colours. The surface can be damaged by scratching or cutting with knives, so the use of a cutting board is essential. Any minor scratches can easily be removed using the grey abrasive pad and other items from the minerva® care kit. Please refer to the care and maintenance guide.

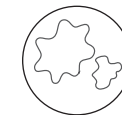

Heat

minerva's surface will withstand heat better than many alternative surface materials. However, all hot pots, pans and other heat generating devices should always be placed on a trivet or worktop protector rods to prevent extreme heat having prolonged and direct contact with the surface. Cooking and boiling water splashes do not harm the surface.

minerva® care kit

To help maintain your minerva® worksurface, a care kit is available from your retailer. This kit contains all you need to make minor repairs to the surface and a special cleaner that helps to maintain, protect and build up lustre, particularly on darker colours.

Staining

minerva®, unlike marble and granite, is not porous and will resist most household chemicals including alcohol and cosmetics, however, some chemicals and strong dyes can cause damage and discolouration. If spillage occurs, wipe off immediately and rinse area thoroughly.

Our commitment to customer service

When you choose minerva® you do so secure in the knowledge that you are buying a proven, reliable product; a product that is truly at the forefront of modern worksurface technology.

Our Customer Care department is on hand to offer you help, support and advice all year round.

Call: 01773 521 300

*Guarantee covers manufacturing not installation. In order to validate this warranty, the registration form included within each product must be completed and returned. Alternatively you can register your warranty online at www.minervawarranty.co.uk

Standard woodworking tools

minerva® can easily be cut on site ready for jointing using standard woodworking tools and equipment.

Accessories

- ✓ Fungal Resistance - EN ISO 846
- ✓ Food Safety - EN V 1186
- ✓ Bacterial Resistance - EN ISO 846
- ✓ Exposure to Dry Heat - EN 438-2.8

Custom service

Your kitchen should be everything you've dreamed of.

Our Custom Service department specialises in producing the extraordinary. Rather than fabricating on-site, bespoke worktops can be manufactured in our factory as per your unique kitchen designs... we call it Custom Service.

All of our minerva® sinks and drainer grooves are located centrally within the standard sink module. With Custom Service, we can locate your sink and drainer grooves anywhere, often to the far left or far right of the worktop.

Caryl UK is committed to sustainability and the need to minimise our impact upon the world. Our commitment to excellence and the environment extends across all areas of our business as demonstrated by our ISO 9001:2015 certification for quality management and our ISO 14001 certification for environmental management.
